Somb Squad Chutes at Sea Ifter Threat to Liner QE 2

LONDON, May 18.-A threat to blow up the giant liner een Elizabeth 2, sailing from New York with 2,350 pas-ngers and crew, tonight forced a Royal Air Force jet to fly t to the middle of the Atlantic Ocean to drop by parachnte

ar bomb disposal experts alongside the liner. The four men successfully jumped and were picked up coard the ship, riding in swelling seas. The leader of the coup had never made a parechute jump before. Their task now is to find and dismantle the bombs-if

Capt. Bill Law, the liner's 60-year-old skipper, decided to form the passengers of the threat. It is his first voyage since - iking over as master.

Cunard, the owners of the 65,000-ton three-year-old ship, ild that a caller told their New York office that six bombs had

E.U.Esp. The caller added, Cunard said, that the bombers had two The ecomplices aboard, one a convict and the other a terrainal encer case, ready to activate the bombs unless \$350,000 were.

Cumard was ready to pay the money.

The \$72 million liner left New York Monday with 1,550 passengers, among them 90-year-old conductor Leopold Stokowski, a regular on the North Allantic run: The company refused for

release a list of the passengers. Cunard said that it had had many previous boar calls.

But it was clear that the British took this one as deadly serious.

The shipowners said the New York caller set a deadline of I pm tonight for ransom to be paid. Whether this meant New Fork or British time was not clear.

However, the caller said he would call back by 2000 GMT

atonight with instructions on how the money was to be delivered. -- (Continued on Page 2, Col 3)

Bonn Seen **Brandt May Call** For Vote Today By David Binder BONN, May 18 (NYT).-With

Elections

In Fall by

completion of parliamentary approval of their Eastern treatics virtually guaranteed tomorrow in the upper house of the parlia-Chancellor Willy Brandt and his coalition partner Walter Scheel prepared tonight to chal-lenge the conservatives to new

The Social Democratic chancellor and the Free Democratic party foreign minister indicated they would combine the bid for interim elections in the fall with an offer to handle the main aspects of West German foreign and domestic policy on a bipartisan basis with the opposition until then.

The package is to be presented tomorrow in written form to the opposition leader, Rainer C. Barzel. The challenge takes up the 47-year-old conservative's own estimate of interim elections as "the most sympathetic solution" to the current parliamentary deadlock bere.

Yesterday the Bundestag, or lower house, split down the middle again on the crucial vote determining the fate of the Brandt-Scheel government's goodill treaties with the Soviet Union and Poland. The 248 coalition votes carried

the treaties only because Mr. Barzel recommended and obtained abstention of the bulk of his

Treaties ease the 'German problem.' A news analysis, Pag: 4.

Christian - Democratic Union-Christian Social Union deputies in the 496-member Bundestag.

He also recommended absten-tion on the treaties in the Bundesrat or upper house. To-day, conservative governors from West Germany's 11 states said they would follow this line, ellowing the pacts to go through on the basis of the lower house

Mr. Barzel has wanted to get the way so he could lead his otherwise divided ranks united into combat against the governing coalition on the more fruitful hattlefield of domestic alfairs—the federal budget, rising prices, the crime rate and the

But opposition leaders reacted sourly to the Brandt-Scheel project for all elections, a full year ahead of the scheduled quadren-

nial federal elections.
"Let the coalition starve to death with its lack of a majo rity," was the reaction of one prominent Christian, Democrat. Another dismissed the challenge

Improving Situation' Speaking for his own tiny Free Democratic party, Mr. Scheel asserted before newsmen today that new elections "would be a way of improving the parliamentary situation," and added that he was "for making a try." But made clear that be shared the view of every knowledgeable politician in Bonn that interim elections, unprecedented in the 23-year, history of the federal republic, could only be brought about by agreement of all four parties represented in the Bimd-

The opposition is doubtful about a vote test in the autumn partly because it now has no completely credible leader and partly because at least 52 of the Bundestag deputies stand a chance of losing their prized pension rights in the event of

Troops Storm Dublin Prison To Quell Riot Linked to IRA

truckloads of troops stormed Duhlin's Mountjoy Prison tonight to quell a major riot apparently organized by the Irish Republican

The troops moved in when it appeared 300 rampaging prisoners had overcome police in a hand-to-hand bettle. Sounds of smashing glass and

crashing bricks could be heard coming from inside the 19thcentury jail in downtown Dublin. Hole in Roof

A large hole apeared in the roof where tiles had been ripped out to hurl at lawmen below. Some guards were believed held

hostage by rioters. The riot was almost certainly the work of the IRA, whose guerrilles are battling British soldiers in Northern Ireland and are working to undermine the government of Premier Jack Lynch

Shelling of An Loc Slackens

Saigon's Troops Probe Near Hué

By Sydney H. Schanberg SAIGON, May 18 (NYT).— Meeting little resistance, South Vietnamese troops continued their probing operations on the northern front today, occupying more territory in the jungle west of Hué in an attempt to disrupt North Vietnamese plans for an attack on the city.

U.S. and South Vietnamese helicopters lifted two battalions of government troops into areas 10 miles and 15 miles west of thué that once were U.S. artillery bases maned Helen and Long but have been deserted for some time. There have been szirmiskes but

no major enemy attacks on the northern front for more than a

The North Vietnamese are apparently regrouping and bringing down more supplies, and e are using the time to try to strengthen their defense lines and prevent the enemy from moving its major weapon, the Soviet-made 130-mm. artillery guns, within range of Hue. The gun can fire its shell 17 miles.

On the two other fronts-in the Central Highlands around Kontum and farther south at An Loc. 60 miles north of Saigon-the situation remained fairly steady.

Relief Force Gains Military sources said that the South Vietnamese 31st Division, which has been trying unsuccessfully for weeks to relieve the troops at An Loc, was making steady progress toward the city, most of which has been turned into rubble by enemy shells and ailied bombs.

The sources said that An Loc was struck by 500 enemy shells today-all mortar fire. Until the last four days, it has been common for the enemy to fire 2,000 to 3,000 rounds a day, most of it heavy artillery, into the city.

The military sources said they thought that the North Vietnamese were running out of artillery ammunition in the An Loc area. They also said that South Vietnamese casualties in the city, the capital of Binh Long Province, dropped sharply this week.

These sources thought that the most likely target of the next major attack would be the enemysurrounded city of Kontum, in the Central Highlands.

The fact that tomorrow is the anniversary of the birth of the late Ho Chi Minh has added to the speculation that a major enemy attack somewhere was imminent. This undercurrent seemed to be reinforced by a North Vietnamese corporal captured near Kontum who said that the long-awaited assault on Kontum would begin during the night to be timed to the former. North Vietnamese leader's birthday.

Sixth Carrier in Action SAIGON, May 18 (AP) .- The U.S. carrier Saratoga joined the Seventh Fleet today, increasing it to six carriers for the first time in the war and raising U.S. naval strength off Vietnam to about 46,000 men aboard more than 60

The 78,000-ton Saratoga came from the Atlantic fleet. Its planes entered the battle to lift the sixweek siege of An Loc. A seventh carrier, the Ticonderoga, sailed from San Diego for Vietnam yesterday.

Hanoi Reports Bombing SAIGON May 18 (Reuters) .- five of them had been shot down. The U.S. command in Saigon said that 390 sorties were flown by Nevy and Air Force fighter bombers north of the Demilitarized Zone in the 48 hours up to

Haiphong Says U.S. Mines Fail To Stop Ships

HATPHONG, North Vietnam, May 18 (NYT).-The North Vietamese say they are clearing American mines from the Haiphong harbor as planes drop them, and are moving ships in and out. Independent sources support that assertion. They say that at least one ship entered the harbor this week—the East German

In Washington, administration officials said categorically that no ships had entered or left Haiphong harbor since the mining last week and that reconnaissance had shown no minesweeping activity. I

A quick tour of the port yesterday showed about a dozen ships
in their berths. There could have been others out of view. Among those seen were ships registered in the Soviet Union, East Germany,

Poland and Somalia. The port area itself has been hit hard. Rather grotesquely, one undamaged building bears the sign—in English—"Seamen's Club: Hairdressing Saloon Tailor and Shoemaker."

Because more bombing is expected, Haiphong now operates on a divided day. State stores are open from 4 to 7:30 a.m., then again

Officials were reluctant to let this correspondent visit the dock area. They restricted the visit to 10 minutes and kept urging haste, saying it was dangerous

This correspondent also saw two Soviet surface-to-air missile being carried by trucks on the road west from Haiphong to Hanoi. Under President Nixon's orders, U.S. mines were activated last Thursday. On the night of May 8, he told the public that mines were being dropped in North Vietnamese ports although officials here said the first ones were actually laid May 7.

New Mines Said Removed

Ku Nhan Thuy, spokesman for the Haiphong city administration, said U.S. planes had been dropping mines almost every day since

Мау 7. mines they lay, we have ways of defusing them. Nixon's mining cannot stop foreign ships coming in."

Officials said flatly that no ships had been hit by mines. No

damaged ships could be seen in the outlying part of the harbor, but conceivably some could have been out of sight. There is much evidence of the extremely heavy bombing Haiphong has sustained during the last month. A visitor sees areas flattened

like the German cities that were subjected to strategic bombing in The North Vietnamese said that their worst day was April 16,

when heavy attacks were received on the Haiphong and Hanoi areas. Haipbong was bit by B-52s and other planes.

Haipboog was hit by B-52s and other planes.

City officials said that 344 persons were killed that day, 513 were injured and nearly 2,000 homes were destroyed. After one inspects the damage, those figures seem quite possible.

A large series of apartment blocks called the Cau Tre Workers' Housing is almost completely smashed. The best preserved object is a small dove house still retaining on its pole in front of the shattered-buildings.

Schumann's Proposal PARIS, May 18 (AP).-Foreign Minister Maurice Schumann of France said today that a political solution to the Vietnam conflict should revolve around two points an independent and nentral South Vietnam, not submerged or annexed by the North, and a coalition government in the South.

He told the National Assembly's Foreign Affairs Committee that he believed the peace talks here could be resumed only on the basis of those two ideas

Mr. Schumann said that France was remaining in contact with the delegations to the peace talks and that the possibilities of progress toward peace were not "absolutely nonexistent."

The talks were suspended by the United States on May 4.

North Insists Mining Fails

(Continued from Page 1) Lung, said a bomb struck at 9:20 a.m. on April 16, wrecking the staff quarters. He said that few nurses were there because the hospital was treating victims of

a bombing earlier that morning. The blast of the bomb wrecked a nearby operating room and about 15 rooms nearby. Dr. Lung said that a boy of 13 who had been wounded in the earlier bombing and was being prepared for surgery was killed.

Some North Vietnamese insist that the Americans aimed at hospitals to terrorize the populace. In the renewed bombing of last month, according to highly reliable accounts, bombs fell on this Haiphong hospital, on one in Hanol and on one in Thanh

Two hig military targets struck were the oil depot and the rail yards on the edge of Halphong nearest to Hanol. Dozens of twisted railroad care can be seen, although many of the tracks have been repaired.

However, the bombing of this area evidently hit much housing as well as industrial targets. Hundreds of acres are virtually flat, with just a wall standing here or there. Officials said the area had been subjected to carnet bombing by B-52s.

Britain Bars Bid To Shut Sub Base

LONDON, May 18 (Reuters) .-The British government today firmly rejected a Labor demand in Parliament to ask the United States to give up its nuclear sub-Scotland, target of anti-nuclear demonstrators since its establishment 11 years ago.

Laborite Frank Allaun said the Polaris submarine base made the British people a sitting duck for

a nuclear bomb.

Rejecting the idea, Lord Balniel, the Minister of State for Defense, said, "The whole purpose of the deterrent, of which these submarines form a part, is to prevent the dangers of a nuclear war or any war."

Rogers Calls Red Offensive Blackmail Bid on Nixon Visit

often try to hide in crowded buses carrying refugees.

WASHINGTON, May 18.tary of State William P. Rogers North Vietnam's big push into told a congressional committee South Vietnam was a move to

blackmail President Nixon's The statement, to a closed session of the House Foreign Affairs Committee, was the first in which a senior government official drew a direct link between the seven-week-old North Victnamese offensive and Mr.

Nixon's trip to the Soviet Union

beginning Monday. "We have the impression that the timing of the attack was intended by North Vietnam in part to confront us with a dilemma: to force us to choose between a military response, with the possible consequences for the U.S.-Soviet efforts to reach accommodation on a number of world issues, and a decision not to respond, with all this would imply for South Vietnam's efforts to be free of foreign interference," Mr. Rogers told the committee.

Would Be Tragic

"It would, indeed, be tragic if this kind of blackmail were permitted to imperil the promise that SALT and other prospective agreements hold," he said, according to a transcript of the testimony.

The secretary of state said that President Nixon concluded that the United States "could not, in conscience, fail to respond, despite the difficulties that the timing presented."

that the U.S. response—escalation of the air war against North Vietnam-might lead to the cancellation of Mr. Nixon'e longplanned visit to the Soviet Union, North Vietnam's principal source of military supplies.

Continue Indefinitely

Testifying today before the

committee, former Secretary of Defense Clark M. Olifford said that under President Nixon's new actions in North Vietnam, "the war will continue indefinitely." The secretary of defense under former President Lyndon B. Johnson added that "the only choice that can truly end the war" is withdrawal of all U.S. military forces on a certain date in return for American prisoners and guaranteed safe withdrawal of the U.S. forces.

Mr. Olifford said the President's order to mine North Vietnamese harbors is not likely to be effective because Russian ships can unload at Chinese ports and their cargo can be transported over-land to North Vietnam and increased shipments can be sent by rail from the Soviet Union.

"The current offensive may stall," he said, "particularly as the rainy season sets in, but the war will go on so long as Hanoi finds the situation in the South incompatible with its interest."

Seabed Treaty Goes Into Effect

MOSCOW, May 18 (AP). Ratification instruments for the treaty banning nuclear weapons from the ocean floor and seabed were deposited with the Soviet government today by the United States and Britain

The treaty, signed Feb. 11, 1971, goes into effect with deposit of the documents. Ambassador Jacob D. Beam of the United States and Sir John Killick of Britain turned over ratification instruments of their countries to Soviet Foreign Minister Andrei A. Gromyko.

The ratification documents of the Soviet Union were deposited at the same time in the Soviet government archives.

The two books found in Bremer's car were "RFK Must Dic.". by Robert Kniser, which concerns Sirhan Sirhan, the man convicted of assassinating Sen Kennedy in 1968, and "Sirhan," by Aziz Shihab. Both books were from the Milwankes Public Library.

Among other items in the car were a Rand McNally road atlas, 13 gas company road maps, travel guides of the Onio and Pennsylvania Tunnpikes, lists of motels on the Ohio Tunnpike, binoculars, clothing and envelopes with the letterhead of the Waldorf Astoria Hotel in New York.

Intention Doubted

Later, Frank Mankiewicz, Sen. McGovern'e national political coordinator, said that he felt Bre-mer's possession of McGovern literature was "probably just ran-

We had so much literature in Wisconsin [Bremer's home state], I'd be surprised if he didn't have some," Mr. Mankiewicz said. "Obviously, the man who shot Gov. Wallace is a disturbed fellow and, when you're dealing with a disturbed personality, anything is possible. Mr. Mankiewicz added. "But the evidence, I must say, seems rather thin."

Meanwhile, Bremer kept his father and younger brother waiting almost two hours yesterday before agreeing to see them.

In a copyrighted article in to-

day's editions, the Detroit Free Press reported that, after the brief meeting, Bremer's father, William Bremer, admitted that he thought his son might have fired the shots that seriously wounded Gov. Wallace.

The elder Bremer, 58, and Roger Bremer, 18, went to Baltimore yesterday morning to sea Arthur for the first time since August. "I was glad to see him," his father said in a television inter-

Father's Assessment

"He had that sort of well, I finally showed you I could do something look. At least that's the way I took it. He was giving me that kind of smile," the Free Press quoted the father as say-

"You start to see all the parts, and they start to add up until you think you have a picture, and you get the feeling it must have been my boy, he said.
"Listening to the news reports

and seeing him there today, I think it must have been my boy." Mr. Bremer told the Free Press that the meeting lasted only a few minotes and was difficult and strained.

Bremer's mother said in Milwaukee yesterday that she didn'tthink her son did the shooting. "I don't believe he did that," she said, "Why didn't they take olas Zarvos, the Secret - fingerprints and find out who did 1t?"

She said that her son had complained that four fingers on his left hand were nearly broken following the Wallace shooting. Mrs. Bremer said that the

"mob" in Laurel, Md., had knocked her son down after the shooting, caused him to have head in-juries and pushed his fingers back. She said that stitches had to be taken in the back of his

GIs Unhappy At Halting of Early Release

HEIDELBERG, May 18 (UPI). -Suspension this week of the U.S. Army's "early oot" program is causing anger, frustration and hardship among affected soldiers stationed in West Germany.

The Defense Department said Monday that it was in effect cancelling the program, which per-mitted soldiers whose hitch was nearly finished to leave the service up to five months early. The Pentagon introduced tha program five months ago to effect

troop-strength reductions ordered by Congress, and to date 50,-000 soldiers have received "early outs." But according to the Defense Department announcement, the

required lower troop levels were reached earlier than anticipated, The decision affected 30,000 servicemen, among them 7,000 soldlers and 200 officers stationed in Europe.

"I can't understand it," said Spec. 4 Tom Eder, whose "early out" would have permitted him to leave the Army next Thurs-day, May 25, instead of Oct, 25.

The figures are in plain black and white. You would think even a specialist-four could see a 7,000-man mistake. That's plain arith-

Spec. Eder. 23, of Elwood Park, III., already has shipped his be-longings to the United States and friends have rented him an apartment in Oshkosh, Wis., where he planned to begin studying this summer at the local university.

Other soldiers have sent their wives home, along with all their household goods. One of those was Spec. 4 George Lomba, 21, of Emfield, Conn., who said: "My wife took

it pretty hard. This Army program was involuntary—they ordered us out-and now they want us back.

Brig. Gen. Sidney Gritz, adjutant general for the U.S. Army in Europe, said the "early out" program had to be halted.

"In my opinion," he said in a broadcast on the Armed Forces Network last night, "there was a miscalculation. I recognize that this is not any consolation to the 7,000 men who were affected, though."

Gen. Gritz said the Army would deal with individual cases of hardship caused by the program. In some cases soldiers will be permitted to leave the service as planned under the "early out" program, but they will have to justify their release, he said.

Crash Landing by DC-9

FORT LAUDERDALE, Fla., May 18 (UPI) .-- An Eastern Airline DC-9 jet crashed on landing at Hollywood-Fort Lauderdale International Airport today and burst into flames. The airline said there were no deaths among the 10 passengers and crew but thet there may have been some injuries.

During of equipment status and reliabilthe Vietnam war, however, they ity. The lack of repair parts was reportedly have been accorded a attributed to insufficient funds low priority in relation to Army and a shortage of "qualified and units in Asia and Europe. experienced personnel." Additionally, some units have

been used to train new soldiers, a mission that has lowered the level of their combat-readiness. Since Bolstered Since the GAO's research for

its report-field work conducted from August, 1970, through April, 1971—the Army has bolstered the strength of STRAF.
Regarding STRAF equipment, the GAO report said:

"We estimate that for the units inspected in the 1st and 2d Armored Divisions and the 4th Infantry Division, about 42, 34, and 31 percent, respectively, of the mission-essential equipment on hand was in a RED condition at the time or our review."

A RED condition is the lowest category used by the Army to designate the readiness and reliability of combat equipment.

As for manpower, the report said, "The tack of readiness of the three divisions is due primarily to shortages of qualified person-

The assignment to those outfits of Vietnam "returnees" with only a few remaining months of service has heightened the manpower problems, the report conlinued, because such soldiers are "extremely difficult to motivate" and are not in the service long enough to be retrained.

A new early-discharge policy will avoid some of those training and turnover problems, "but it does not help to eliminate the total shortage of personnel in the

Irving Sues U.S. For \$91,000 Held **Under Tax Laws**

NEW YORK May 18 (AP).— Author Clifford Irving, his wife I dith and his researcher, Richard Suskind-the principals in the Howard Hugues autobiography hoax-sued in U.S. distric court yesterday for the return of more than \$91,000 they said had been taken as "jeopardy assessments" by the Internal Re-

venue Service. They asked the court to disolve the assessments on grounds that the government had falled to take "certain technical steps required by tax laws" in collecting the money against 1971 income taxes

The IRS applied tax liens against the Irvings and Mr. Suskind last February, more than a month before they pleaded guilty to a hoax in which McGraw-Hill Inc. paid \$750,000 for a fictitious autobiography of Mr. Hughes, the eccentric millionaire. three pleaded guilty to grand larceny and fraud and await sentencing June 16. Each could get 13 years in prison.

Cancer Increase Among U.S. Blacks Cited

By Victor Cohn

WASHINGTON, May 18 (WF). -An "alarming" increase in cancer deaths among blacks in America was reported yesterday by Howard University researchers.

The Howard doctors said that greater exposure to cancer-causing substances in the environment of blacks must be suspected as the main cause.

What these substances are they did not try to guess, but they said. "A thorough analysis

strikes in recent days, did not join the walkout. Theaters and movie houses throughout Italy closed down when firemen failed to show up for routine duty.

In Sicily, the firemen's strike forced cancellation of the first day of official trials for Sunday's 56th Targa Florio car race. The "race of the 1,000 curves" over treacherous hill roads was first held in 1906 and is the world's oldest existing road race.

Officials said that, if the firemen's strike continues through tomorrow, this would leave only one day for trials and one night for repairs.

The civil servants, demanding

more pay and an overhaul of the promotion system, called the protest strike because the government met demands of higher ranking civil servants before it acted on theirs. The strike was the first in

what officials said might become a major wave of walkouts.

Tito Will Visit Russia

MOSCOW, May 18 (Reuters). -President Tito of Yugoslavia will visit the Soviet Union in the first half of June, Tass an-nounced today. His visit, which will come shortly after that of President Nixon, follows 'ess than a year after Kremlin leader Leonid Brezhnev was in

Parley Seen

BRUSSELS, May 18 (UPI) .-The North Atlantic Treaty Organization is ready to give the formal go-ahead for preparations of a European security conference, NATO officials said today.

They said yesterday's vote in the West German Bundestag to ratify Bonn's treaties with Russia and Poland cleared the last roadblock to Western approval in principle of the conference.

This approval, they said, will probably be announced May 31 in a communiqué ending the NATO foreign ministers' meeting

The officials predicted that talks on preparing the conference would begin in Helsinki in the autumn, on the ambassadorial The security conference itself might open next spring, they said.

The Russians have long pushed for a security conference, but the Western Allies insisted that the Berlin problem be solved first. An acceptable solution was reached in the recent four-power agreement on Berlin, but the Kremlin said it would sign that agreement only when the West German treaties were ratified.

Laird Briefs Allies

COPENHAGEN, May 18 (Reuters).-NATO defense ministers today heard from U.S. Defense Secretary Melvin R. Laird a new assessment of the East-West nuclear balance. Afterward, they all declined public comment.

The ministers and chiefs of staff of Britzin, West Germany, the United States, Italy, Denmark and Belgium and an ambassador from Turkey gathered this morning for the first session of the 11th biannual two-day meeting of NATO's Nuclear Planning Group.

The group's tradition is that the first item on the opening day's agenda is the U.S. defense secretary's assessment of the strategic balance.

Mr. Laird has no plans to fly back to the United States before next Wednesday's meeting in Bonn of NATO's Defense Planning Committee, his press spokesman said today. Mr. Laird will spend the next few days privately . in Europe, the aide said.

Traffic Lively At Berlin Wall For 2d Visit Day

BERLIN, May 18 (AP).- West Berliners moved through the wall into the East for the second day today of an eight-day Pentecost visiting period, buoyed by the hope of permanent visiting rights

At the same time, there was concern over reports of sharp-ened East German controls at one crossing point.

The official East German news agency ADN said traffic at nine wall crossing points into East Berlin and East Germany was lively. The agency described the processing by Eastern border guards as "fast, with no complications and correct."

West Berlin officials had no comment on reports from travelers that inbound West Berliners, after a visit to the East, underwent thorough physical examination at the Staaken Road crossing point.

This eased during the day after a nighttime peak but truck drivers said they were being subjected to controls "as intense as before." Lengthy delays were involved.

Nixon Names Envoys To Uganda, Burundi

WASHINGTON, May 18 (UPI). -President Nixon has nominated ambassadors to Uganda and Burundi

He named Thomas Patrick Melady, 45, ambassador to Burundi since November, 1969, to the post in Uganda. He will succeed Clyde Ferguson, who will become depoty assistant secretary in the Bureau of African Affairs at the State Department. Robert L. Yost, 49, the deputy

chief of mission at Addis Ababa, will replace Mr. Melady in BuNews Analysis

Pacts Ease 'German Issue Division Accepted for No

Approval by the upper house is

The treaties, between West Ger-

many and the Soviet Union and

between West Germany and Poland, change little or nothing by

themselves. They speak of ac-

cepting borders that are already

heavily defended and therefore

accepted, of renouncing use of

force in a region where few be-

lieve anyone contemplates using

The meaning of the treaties lies

rather in their expression of the

will to improve relations across

national, ideological and military

bloc boundaries and the expres-

sion of mutual goodwill by the

three treaty countries. This sense

of the treaties is what Chancellor

Willy Brandt and Foreign Min-

ister Walter Scheel have repeat-

edly emphasized in their descrip-

tion of them as a new begin-

Perennial 'German Problem'

For non-Germans, the out-

standing result of the ratification

is that Europe can close its books on the perennial "German prob-

lem," at least for a while, that

the 77 million Germans are will-

ing to accept the fact of two

ENDLY VISIT-From left: Prince Philip, the Duchess of Windsor. Queen Elizabeth Prince Charles at home of Duke of Windsor in Paris's Bois de Boulogne yesterday.

She Returns to Britain Today

Queen Calls on Windsors; Duke Ailing

Czech, By Hebe Dorsey RIS, May 18 (IHT) The Improductess of Windsor for the time in her life today was 10 Gess to Queen Elizabeth II.

PRACE it was all the queen's idea to her uncle," a spokesman for Control of the contro the queen said. On previous the fueen, the Duke and left the were ob-esly told not to.

he duchess and the royal ty had tea in the library, n went upstairs to see the e who remained in his sitting m on doctor's orders.

m on doctor's order.

The duke is not well," the kesman said, "but his was seed. He was in good spirits the macen." i happy to see the queen." Considerable Speculation

The duchess walked out to meet queen on the porch of ber some in the Bols de Boulogne. e was wearing a Wallis blue pe Dior afte loon dress. The teen was in a coat and dress of rquoise and white silk, with a alte and turquoise straw hat. There had been considerable Generalism that the Duchess of .

Windsor might be made a royal highness on this occasion. But the title cannot be granted by royal will. It is given to those in line of succession to the throne and to the consort of the queen. Prince Philip rates it, Lord Snowdon does not.

Hearst to Buy Paper in Boston

BOSTON, May 18 (NYT) .- An agreement in principle for the sale of the Boston Herald Trayeler, for decades the voice of Boston's Republican establishment, to the Hearst newspaper chain was reached here yester-

It was understood that the newspaper's management and Hearst Publications had agreed on a price of \$8.5 million.

The agreement, which would mean the death of the 125-yesrold Herald and the conversion of the Boston Hearst tabloid newspaper-the Record American-to a full-size daily, is subject to approval of the Herald's direc-

tors and stockholders. No oppo-

sition is expected.

The meeting took place after the queen flew back to Paris from a 24-hour visit to the south of France, where she toured ancient Roman cities and made a tourist trip on foot through the rocky alleyways of the medieval hilltop village of Lea Baux-de-Provence.

In between her return to Paris and the visit to the Windsors, the queen bad gone to the Longchamp race course where the fifth race, the Prix des Lilas, had been renamed in her bonor She set in the French president's box and walked down just before the fifth race to the stables and then went to the paddock. The royal party was followed by officials and racing stable owners, including Marcel Boussac and the Baron and Baronne Guy de Rothschild

The queen awarded the 18inch-high triangular gold Queen Elizabeth II cup to the Comtesse M. Batthyany, owner of the winner, Arosa, which was ridden by J. Cruguet .

The royal visit to Paris ends tonight with a dinner and a ball at the British Embassy. After a visit to Rouen tomorrow, the queen leaves for England aboard the yacht Britannia.

Teacups Clink As U.S. Opens Dacca Embassy

DACCA, Bangladesh, May 18 (NYT) -In a ceremony marked by the clinking of teacups instead of the usual champagna glasses, the United States diplomatic representation in Daccait formerly called itself a "mission"-officially became an embassy today.

Herbert D. Spivack, in charge of the new embassy until an ambassador is appointed, hailed the upgrading of the post as "initiating" a new era in United States relations with the govern-ment and people" of Bangladesh, which have been touchy.

Without waiting for the embassy to be established formally, a team of United States Aid officials has been conferring with the government of Bangladesh on how to spend a massive allotment of American economic aid to the new and struggling country. The total American contribution is expected to reach \$300 million in cash and commodities

British Official To Go to China

LONDON, May 18 (AP).—A British Foreign Office minister will fly to Peking May 30 for wide-ranging talks with Chinese officials on world problems in-cluding Vietnem, a government announcement said today,

The nine-day visit by Anthony Royle, parliamentary undersecretary for foreign affairs, will be the first undertaken by a Foreign Office minister since Britain recognized the Communist government of Peking in January, 1950.

Mr. Royle will be preceding Poreign Secretary Sir Alec Douglas-Home who will go to China on an official mission next October, Prime Minister Edward Heath has been told he, too,

U.S. Girl, 2 Months, Gets Heart Pacer

OAKLAND, May 18 (AP) .-A miniaturized beart pacemaker has been implanted in a twomonth-old baby here, believed to be the youngest recipient of the device.

The operation, doctors said yesterday, has enabled the once-failing beart of Nicole Kruljac to beat strongly. Nicole, a twin, was born with a complete heart block, said Dr. Stanley Higashino.

The pacemaker sends electric impulses to the beart muscle, causing it to beat at a proper

The Hot-Line Principle

When Mr. Nixon sets out on the road to Moscow Saturday, he will be accompanied by as confusing a set of auguries as ever attended a mobile statesman, for Mr. Nixon and the Soviet leaders are doing what was almost unknown to the old diplomacy: They are conferring at a time when such a conference might really help to resolve critical conflicts of policy between their two governments, instead of merely setting an ornate seal on agreements already reached.

This is carrying what night be called the hot-line principle a step further than urgent talks by telephone. The establishment of direct contact hetween primary cources of authority by telephooe was an important innovation in diplomacy, but it had cartain limitations that can only be removed by face-to-face conversations, with skilled staffe in constant attendance and the realization that the public knows of the talks, and expects something from them.

To be sure, the Nixon Moscow journey was not intended to be invested with a sense of crisis; it was the mining of the North Vietnamese ports that did that. Moreover, high-level meetings do not always accomplish what was hoped from them. There was a series of them for example, climaxing at Munich, that has become proverbial.

Nevertheless, it might be a good thing if

the old notion that direct conversations should be cut off when matters grow serious (as Mr. Khrushchev, for example, broke off the Paris summit meeting because of the U-2 incident) should be finally laid to rest.

Summit meetings are by no means a final solution for the ills of the world. It has often been pointed out that they have to be preceded by carefully detailed studies if they are to accomplish any more than a cheery communique: that they can be perverted for publicity purposes, or lead to great popular disillusionment if they fail. More, they have to be based on a will to reach some accord, including broad-hased acceptance of such an accord at home.

In spite of all these qualifications, Mr. Nixon, and Messrs. Brezhnev and Kosygin, can do much. European problems are moving toward some eort of more practicable status quo, with the progress of the Moscow-Bonn treaties in the West German parliament. Agreement seems within reach on limitation of strategic arms. Trade and monetary policies can he adjusted. And the great, stubborn issues of Southeast Asia and the Middle East could profit by greater mutual understanding hetween the United States and the Soviet Union. To tackle such problems at the summit now will not he easy-hut that is precisely why they should be confronted now.

Bonn: Treaties at Last?

Russia and Poland now seem certain of ratification by the end of the week-not with the solid Bundestag majority Chancellor Brandt had anticipated hut by default of the Christian Union opposition. Unable to agree on any other strategy, the opposition decided to abstain on the critical vote Wednesday. As a result, the treaties were approved with 248 votes, exactly half the Bundestag membership.

It would still be possible for the Bundesrat—the upper house that represents state governments-to hold up the treaties and force another Bundestag vote on which an absolute majority would he required for ratification. But the Christian Democratic Union leaders, obviously uneasy in a negative posture on eo important an issue, have asked state governors not to use this delaying tactic when the Bundesrat debates the pacts.

After agreement had been reached with Mr. Brandt on a joint foreign policy declaration aimed at relieving opposition fears about the treaties, Rainer Barzel, leader of the CDU, sought to give his party a free

West Germany'e friendship treatics with vote on ratification. Such a vote would have produced a substantial government majority. But Mr. Barzel could not control his own ranks or those of his Bavarian partner, the Christian Social Union, led by the hardlining Franz-Josef Strauss.

> So on one of the most important votes in the Bundestag'e 23-year history, involving a watershed in West German foreign policy. the opposition took no official stand. It did toin with the government parties, however, in giving overwhelming approval to the Brandt-Barzel foreign policy declaration. CDU leaders now claim their reservations about the treaties produced this declaration and thus restored bipartisanship to Bonn's foreign policy.

> West German voters will pass judgment on this argument in due course. What is of prime importance is that, if no further hitches develop, the cornerstone of Mr. Brandt's whole Eastern policy will soon be in place, paving the way for additional important efforts to hulld genuine East-West détente in Europe.

THE NEW YORK TIMES.

Shootout at Lydda

Israel cheered last week when Israeli paratroopers, disguised as mechanics, burst into a captured Belgian airliner at Lydda Airport to free 90 passengers and 10 crew members who had been held hostage for 23 hours. In a short but wild gun battle, the tough paratroopers killed two Palestinian guerrilla gunmen and captured two female accomplices, wounding one.

"If all the countries would do as we did. there wouldn't he the disgrace of hijacking in the world." ohserved Lt. Gen. David Elazar, the Israeli chief of staff. That is debatable. The psychopaths and

fanatics who are often responsible for hijacking won't necessarily be deterred by the danger of death. Besides, the tough tactics that the Israelis and others have adopted to try to curb hijacking gravely endanger the lives of passengers and crew. One passenger has died of wounds, 4 others were injured in the Lydda affair. Last October a gunman killed a pilot, his estranged wife and himself at Jacksonville International Airport when FBI men closed in, guns hlazing, on

the small private plane he was attempting to hijack to the Bahamas.

The safest and most effective way to deter hijackers is to intercept them before they board the aircraft-something Belgian officials inexplicably failed to do despite a warning received before their Israeli-bound jet left Brussels. Psychological and electronic techniques for spotting would-be aerial pirates and their weapons have been vastly improved recently. But airlinee and governments have been slow to make full use of these preventive measures.

Following a rash of extortion hisjackings in the United States, the chairman of the Civil Aeronautics Board suggested last month that President Nixon name a high-level commission to consider strong federal intervention to increase airline and airport security. Some such governmental action is urgently needed at home and ahroad to stop hijackere ' -fore they get off the ground. Shootouts, although they may occasionally become unavoldable. are not the answer.

THE NEW YORK TIMES.

International Opinion

Bonn's East Treaties.

Final ratification of Mr. Brandt's controversial Russian and Polish treaties now seems assured by the end of next weeka deliberate and possibly over-hasty sweetener for the Kremlin just before President Nixon's arrival. An agreed Bundestag resolotion reserved German and West-power rights about which the treaty texts are, to say the least, perllously equivocal. As a result the opposition forbore to use its power to block ratification.

-From the Daily Telegraph (London).

Skyjacking and Israel

There is widespread public feeling that the spectacular Israeli procedure in freeing the hostages on the jet from Brussels hijacked by Palestinians is the only language understood by political blackmailers and the only means to stop a method of violence which places innocent passengers in mortal danger. It appears obvious that the "air pirates" involved here were desperadoes and there is a certain irony in the fact that the supporters of those who were prepared to blow up nearly 100 people are now complaining about a lack of humanitarian pro-

tection by the International Red Cross.

-From the Neue Zuercher Zeitung (Zurich).

compulsive thrust of economic Flags, even international flags as it were, have habit of following trade. It is this truism that has brought Elizabeth II hack to Paris as England's first "European" sov-ereign—she is "European" in the sense of belonging to a club of equal nations, not as claimant continental real estate.

Letters

Nixon and the War

Anthony Lewis says: 'Four years after Johnsoo began deescalating the war in Vietnam, Richard Nixoo has taken it to dizing world peace makes one its highest pitch yet." (IHT, wonder if Nixon warrants any May 13-14).

Didn't I read somewhere that our President had withdrawn most of our troops, and that it was the Hanoi dictators who had taken the war to its highest pitch yet by massively invading their neighbors with a dozen or more divisions equipped with hundreds of tanks and other modern weapons of aggressive warfare? But perhaps one reads the news differently through glasses tinted with a certain coler.

I have great confidence in the wisdom, fairness, and basic decency of the American people. Their answer is given to our foreign enemies—and those Amer icans who can only read through tinted lenses—in a headline (IHT May 13-14): "Poll in U.S. Finds 76.4% Support Nixon's War Policy." It will be fascinating to see how the magic lenses read this. CHARLES SIMON.

Monte Carlo.

It is difficult to believe that 76.4 percent of 1,108 persons in the United States support President Nixon's present war policies in Indochina (IHT, May 13-14). Statistics can be very misleading, especially if there is no indication of the "sampling." Anyone who has sweated out a simple course in statistics knows that the first question is apt to be "who was questioned?" Then, was it a fair cross-section? Just Who are these 1,108 persons who approved Mr. Nixon's actions? LYDIA H. WOLF.

Now that the "New Nixon" we were sold in 1988 has had his eheep's skin pulled away, we see the same "Old Nixon"—a man whose motivation arises from the desire not to be the first American President to lose a war. Daily he sends hundreds of people to their death to save his face and hopefully to stay in

RICHARD PERLMAN. Hannover, W. Germany.

Nixon's wanton abuse of both the power unfortunately at his petulant disposal, and the integrity of the office to which he has been entrusted, is blatant, Winning the election in 1968 with a "secret plan" to end the war over a President pressured to abdicate due te distillusionment with his war policy, Nixon has somehow. managed to escalate the war, long discredited as vital to our security, to international crisis proportions. All in the name of

the office of the President (if there is any still left to be maintained)? Such a poor justification for continuing unnecessarily the mass destruction and jeoparcredibility at all; indeed, it puts in doubt his very qualifications to serve in such a high office.

In the event the desperate act of mining Haiphong harbor (and the systematic obliteration of North and South Vietnam) fails what will Nixon do next? Nixon has lost all objectivity. How is it possible for the American people to believe in his highly personal justification for what he is doing in their name? WAYNE LENIK.

If an American mine or a stray American homb blowe up a Soviet ship with its crewand Soviet retaliation leads to a point of no return-good-bye to elections in November, And if we shall be spared once more, most voters will realize that the patriotism of President Nixon is no excuse for prolonging a war which we lost before he came

KURT KAUFFMANN. Lucerne, Switzerland

If only the North Vietnamese were sharp enough to face facts. Can't they see the writing on the wall? They just don't know how to admit defeat. They're so darn intractable. It's self-defeating really. In the end they won't anything. They've got to admit reality: They don't helong there. Their Northern ways don't mix in the South. Why can't they realize that? Their methmay work fine up in Vinh but down there in Ninh they just don't go. Yet they are so sure they are right. You can't tell them anything. They just barge in and assume that they're beroes. Man, country cousins!

P. J. SMITH. Bottmingen, Switzerland,

Ever since the invasion of the South by North Vietnam, editorials in the LHT have apparently been trying hard to fight for the Communist side and against their own country-America! Yes. and its President. I am sure that most of us want out of Vietnam, but at what price? It is certain that the North will not make peace until they are sure they cannot take over the South by force. Are the great sacrifices of our people during nearly 10 years to ge for naught? Can we permit the South to be overrun and its people who want only freedom to be enslaved? The supply lines are North Vietnam's jugular vein. As this vein empties, the North will sue for peace. what? Maintaining respect for In the meantime may every true

Other sources indicate that the Chinese have moved elements of their air force closer to the Soviet

> Along with improving their canabilities, the survey says, the Chinese have constructed a new radar defense system and have deployed a network of surface-to-air missiles not far from the frontier.

Missile Sites

The Chinese reportedly are also developing an arsenal of medium and intermediate-range ballistic missiles, the latter capable of hitting Soviet installations in the Ural Mountains. About 20 medium-range missiles reportedly are deployed in northwestern and northeastern China, while an intermediate-range missile site has been identified in Manchuria.

In the opinion of the survey's authors, however, the Chinese are on the defensive and would be reluctant to undertake actions that might provoke a Soviet attack.

Analysts here speculate, meanwhile, that Hanol may have asked the Russians and Chinese to cooperate to maintain the flow of Soviet military equipment, petro-leum and economic aid to North

Vietnam. These sources suggest that Peking may allow Soviet ships to unload their cargoes at Chinese ports, from which the supplies could be transferred by rail to

SHANGHAI (WP) .-- Air and water pollution in this heavily industrialized city of 10 million could become a serious problem in the next few years unless stringent control measures are put into effect. The anti-pollu-tion measures that have been taken are inadequate to cope with a vast expansion of industry, gov-ernment officials admit.

"Although we have been paying a good deal of attention to environmental hazards, we are becoming increasingly aware that what we have done to date is not sufficient. Both our methods of monitoring air and water quality and what we have done to control contaminants are not adequate," the head of the environmental control agency for the Shanghai area, Liu Shang-

inang, said in an interview The rapid expansion of industry to increase production and achieve greater self-sufficiency throughout China has been responsible for worsening pollution in the big cities. It is not so bad in the countryside, where many of the new factories bave been

The Chinese, in common with many other developing countries under pressure to increase production rapidly, face a hard choice: whether to slow down or to pollute the atmosphere.

Air and water pollution in

Shanghai, one of China's earliest production centers, is apparent, During foggy or cloudy days, tellale smog can be seen. Smoke apartment houses burning coal. The rivers are mindey and carry traces of oil slick. Drinks is highly chlorinated.

However, the situation is far better than it is in such citles as Tokyo, Rome and Los Angeles, probably because there are no privately owned automobiles in Shanghai and only a few taxis. People travel by bus or on bicycles. There are a limited number of trucks.

Rickshaws Reserved Surprisingly rickshaws are seen

occasionally. These are reserved for the old and the infirm and are also used to deliver packages. The major source of Shanghai's

pollution, the head of the environmental agency said, are the older factories. "Most of them were built 25 to 50 years ago," he said. "Most of them are small and none of them, either large or small, was designed to control pollution hazards. They are our greatest problem."

A great number of the small factories, he added, have been amalgamated into larger units and moved to the suburbs. Nevertheless, there are still many large, old plants in the center of the city. Installing pollution-control devices in them is costly and often impossible for technical reasons.

Anti-pollution devices, the en-

vironmental official insisted, are mandatory in new plants. When pressed as to what standards his agency imposed, he gave some examples, indicating that these standards are rooghly comparable to those in the United States. As to how rigidly they are enforced, he replied candidly, "not

Monitoring of the chemical composition of the air in Shang-hai, is, for example, infrequent -at most twice a year. Samples are taken more frequently-once month-to determine amount of soot in the air.

Mr. Liu said that most large industrial plants make more frequent measurements of pollutants in their waste, both in the air and water. He added that responsibility for reducing toxic amounts was largely left to the factories.

To a degree, this is more effective than it sounds. Plant management officials appear to be genuinely concerned with controlling harmful wastes. For example, at a petrochemical plant on the outskirts of Shanghai, a nearby farm complained a few years ago that the amount of hydrofluoric acid coming from the smokestacks of the plant was killing its crops.

As a result, a system for recovering the plant-killing chemical was installed and used to produce cryolite, a material used in aluminum production.

But the recovered waste, it was found, did not pay; the factory North Korea, a Study in the Ubiquity of Kim By Harrison E. Salisbury PYONGYANG, North Korea,

And the visitor is informed that the university was founded personally by the premier on Oct. 3, 1946. visitor to North Korea

quickly notices the pervasive presence of Premier Kim Il Sung in a picture or statue at almost every turn. And at each institution the visitor is told of the premier's personal interest and solicitude for every variety of public, social and state enter-

The premier is customarily referred to by every official as "our beloved and respected leader, Comrade Kim II Sung." The premier has visited the university 80 times and has is-

sued 220 guidance directives on university affairs. Each of these visits and directives is depicted for the enlightenment of students and faculty in the 10 rooms devoted to his life. The care with which the uni-

versity cherishes the memory of his visits and interventions is not unique. The Pyongyang Children's Palace, also founded by the premier, displays a similar respect for the leader in a room which young boys are taught to drive trucks. A plaque notes that Mr. Kim has visited the room six times.

The date of each visit is recorded at the Mangyongdae State Hatchery, a mechanized egg-producing operation that the

director, Jyong Ryon Kim, said was "built under the solicitude our beloved and respected leader, Comrade Kim II Sung."

His Effigy at Almost Every Turn

A plaque in the elevator quotes the words of the premier-In order to improve the people's living standard it is essential to produce more eggs at a lower price." This is a task to which the hatchery is said to have successfully applied itself last year by turning out more than 100 million eggs.

Kim Il Sung University is an imposing institution with an enrollment of more than 10,000 students and a staff and faculty of 3,000. About 2,000 students are graduated each year.

The school library is said to contain more than a million volumes, including the complete works of the premier, in Korean and translated into dozens of foreign languages. Few students or scholars were at work in the modern library building Tuesday. But this was explained by the fact

Chiang's Son on Way To Becoming Premier

TAIPEI, May 18 (Reuters).— Taiwan's ruling Kuomintang party yesterday approved the nomination of President Chiang Kai-shek's elder son, Chiang Ching-kuo, as premier.

President Chiang will submit the nomination in the next few days to the Yuan (Parliament) where it is expected to be overwhelmingly encorsed. Chiang Ching-kuo, 81, has been vicepremier and was recommended by outgoing Premier C. K. Yen, who resigned last week to enable President Chiang to form a new

ended for most of the students and they are now doing what is called "practical work" in the fields and factories.

A 22-story campus building is nearing completion. When the whole university building project is finished—this is expected honefully by 1976—the facilities should be the envy of most American

Thieves in Italy **Steal Priceless Church Painting**

PADUA, Italy, May 18 (UPI).

Thieves broke into the baptistry of the Padua Cathedral and stole an altarpiece that authorities said was so preclous it was virtually unsalable.

"It is a famous work, practically invaluable," Francesco Val-canover, art superintendent for the Venice area, said. "I really cannot understand why thieves keep taking masterpieces they cannot sell under any circumstances because they are too well known.

He said that this was why he hoped the 14th-century altarpiece Giusto de Manahuoi would soon he recovered, as were a Titian and other paintings stolen last year.

Police said that the thieves anperently used false keys to open a gate and forced two doors to enter the haptistry and steal the altarpiece. It is formed by 19 wooden panels hinger together. The central painting is a Madonna and Child and smaller panels on both sides show scenes from the life of St. John the Baptist.

"All checks completed; commencing take-off."

Taking off. Landing. And, in between, keeping the plane on an even course. That, you might think, more or less sums up a Captain's job.

Not by a long way. Even before boarding, the Captain is responsible for some 40 exterior checks. Once in the cockpit, another 164.

Meanwhile, each member of the cabin crew has been going through a checklist. When they've all finished - they report to the Captain.

The Engineer presents his report. Everything that's been done to the plane since touch-down, in full technical detail.

Only now, when every single aspect of the plane has had the Captain's personal approval, can he commence take-off.

Our Captains are perfectionists. We wouldn't have them any other way. Nor, we believe, would our passengers.

Your Captain wishes you a pleasant flight.

Girardot, Moreau and the New Soap Operas

By Thomas Quinn Curtiss CANNES, May 18 (TET).—"It's spring again." Annie Girardot exclaims ecstatically when her husband returns after an absence of one reel in "Les Feux de la Chandeleur," the last French entry in competition at Cannes.

It is indeed spring again for the brand of fiction that once flowed so steadily from the facile pens of Fannie Hurst, Faith Baldwin, Kathleen Norris and Edna Ferber in which the trials and tribulations of misunderstood women were so tearfully set forth. "Les

have been written by any of the aforementioned had they spent six months in France.

Marie-Louise, the wife of a provincial lawyer and mother of a son and daughter, is distressed when her husband strays away, largely because of her militant engagement in uplift. In the American magazine serial of Jesterday, she would have joined the WCTU, held office on a censorship board or perhaps been a violent advocate of making the world safe for democracy. Being a middle-class Frenchwoman of

wearing a red hat and by making snide cracks about the rest of the bourgeoisie. One must have a heart of stone not to laugh over her problems which have been designed to make the public Philippe de Broca's "Chère

Louise"-with Jeanne Moreau as a lonely schoolmarm who takes a young Italian vagrant as her lover—is similiar soap-opera stuff, though less ludicrous. The presentation has a soupçon of style. It is an obvious attempt to repeat the "Mourir d'Aimer" formula in hopes of repeating the latter's box-office success. De Broca here stoops to conquer.

Elio Petri's "The Working Class Goes to Heaven" (an Italian entry) is a heavy labor drama with Gian Maria Volonte giving an earnest if overdone account of a Milanese factory hand, the victim of both his bosses and socialist reformers. At least one third of its scenes are unnecessary for its story, and its pace is deadly.

"Trotta" (from West Germany) has solid quality, being an exact-

Around the Paris Galleries

Aszer Jorn, Galerie Jeanne Bucher, 53 Rue de Seine, Paris 6, to May 28.

Asger Jorn is one of the most explosive artists now expressing himself in the abstract expressionist manner and the present collection of gouaches shows that he remains true to his free and violent mode. The works are strong in color, on the fringe of arbitrariness, an expression of joy, anguish and revolt. And the revolt, one understands, connects with revolution.

Camilo Otero, Galerie du Triangle, 27 Rue Guénégaud, Paris 6, to

One big wood sculpture and a large number of smaller ceramic ones, of rotund, ruptured forms, in a matter that is warm, modest, somber and with the sort of fractured calcined edges one might imagine protruding from the chthonian Spanish soul.

Mario Prassinos, Galerie de France, 8 Rue du Faubourg Saint-Honoré, Paris 8, to May

Born in Constantinople 56 years ago, Mario Prassinos enlisted in surrealism at a relatively tender age and has remained involved with a subject matter somewhera between fantasy and memory, The present exhibition has large canvases in which forms are made to appear through spattering (predominantly black) paint in constellations of varying density on the canvases. A sequence of lonely works bear the title of Paysages Tures" and show a Another sequence is inspired by Orthodox icons. Tapestries and small sculptures are also to be seen. A rather cool, rather aesthetic and possibly melancholy sort of whimsy is

often apparent. -BUCHAEL GIBSON.

Feux de la Chandeleur" might today and as bourgeois as they ing, somewhat over-literary but come, she lets off steam by excellently acted version of Joseph Roth's novel about the marching through the streets singing "The International," by decline of an Austrian family between 1914 and the early 1920s. Both its direction-by Johannes Schaaf and its performances are of distinction. It is one of the best films to have come from German-speaking lands since the war. Festival spectators are a restless lot and inclined to have limited abilities to concentrate. It is to the credit of "Trotta" that not a single member of the audience left the theater while it was being shown.

> "Hall"-exhibited in the directors' fortnight section—is the work of Fred Levinson and is designed as a burlesque of the American political scene. It places an imaginary President in the White House and mocks his megalomania with capers of a Gilbert and Sullivan nature. It contains a few laughs, but its satire is sophomoric.

Certain films selected to com-pete in the Cannes Festival appear to have been chosen by ticktack-toe. How otherwise can one explain the presence of that deadly dull saga of the uprising of Silesian miners, "La Perle de la Couronne" (to represent the Polish cinema) or that pennydreadful Grand Guignol melodrama, "Malpertuis" (from Belgium) or "A Fan's Notes" (from Canada)? The last doesn't seem to come from Canada at all, but rather from Greenwich Village with football aficionados who require psychiatric treatment and whose objections to the cliches of the American way of life are stale clichés themselves. If it were not for the dirty jokes, the script would fit comfortably into the television slot.

The Czech entry, "The Perol Lemps," is a interminable and lugubrious tale of an imperial Austrian Army officer who contracts syphilis during his dismal dissipations, preventing him from having a normal marriage in sub-sequent civilian life. At the end, he is installed in a sanatorium, a hopeless paretic. The scene is a small barracks town at the turn of the century. The period and place are convincingly established, but as drams the film is static and does not possess the theatrical power to raise it ebove its depressing subject matter.

Francois Reichenbach's "Johnny Days" is a wide-screened, technicolor documentary about the life, times and public appearances of

Sadler's Wells Theatre Saved For Two Years

LONDON, May 18 (UPI).— The Sadler's Wells Theatre has been saved for another two years, its governors announced today. The theater, vacated by Sadler's Wells Opera Company barren land with a solitary tree in 1968, was in danger of closing rising out of it—reminiscences of for lack of funds and a permanent appeal for money and by today had collected £90,000.

the board of governors, said that this would be enough to keep the theater going with visiting companies through 1973 and 1974.

David McKenna, chairman of

back when. A very sophisticated viewer may read social significance into the mad antics. The real fans, though, are the kids. They giggle when Cassander stumbles over something (usually Pierrot who has just stumbled over something else) and they roar with laughter when Harlequin manages to whack Pierrot in the behind with his magic

a master of the reporter camera,

COPENHAGEN (IHT).-The commedia dell'arte tradition, the encyclopedias report, originated in Italy in the 1400s and the comedians worked their way northward in the 16th, 17th and 18th centuries through France, Germany, England and the Low Countries.

They seem to have found a permanent home in Denmark Every night through the Tivoli season-May to September -Harlequin and Pierrot work their problems out on the open-air stage of the Pantomime Theater, just inside the main gates of venerable Tivoli Park. The building, dating from 1874, looks like a Chinese temple. The curtain is a giant peacock's tail, divisible, and a more popular name of the establishment is the Peacock Theater.

Harlequin's problems, remember, are old Pantalone (a naturalized Dane by now and renamed Cassander) and his dumb gentleman's gentleman named Pierrot. Harlequin is madly in love with Cassender's daughter, sweet Columbine, who in turn is madiy in love with dashing, daring and dapper Harlequin, dressed in a checkered-and-spangled suit and a Lone Ranger-type black masque. Cassander and Pierrot do all they can to keep the young

lovers apart. Cassander and Pierrot always the game: Elfin-like Columbine invariably winds up in the arms of clever Harlemain in the final scene, sometimes before an array of elves and fairles. Harlequin knows his way around in the woods and if the going gets rough there is always some benevolent warlock or fairy godmother to help him out. It went over great in 15th-

century Italy and 17th-century France. It goes over great in 20th-century Denmark. The current repertoire includes

half a dozen plays, including titles like "Harlequin the Cook," "Harlequin as a Mechanical Statue," and "Pierrot Madly in A not-too-sophisticated adult

viewer may enjoy the performance and a pleasant reminder of a course in theater history way wooden sword.

Paradoxically, the real hero

Tivoli Park. with kids and adults is Pierrot. Pierrot (not Columbine and Harlequin as one would expect) is the one to take the curtain

performances have been claimed to be a unique vestige of a 500year-old tradition. "Let's not be too chauvinistic," says Niels Bjoern Lersen, ballet

Tivoli's commedia dell'arte

Entertainment In New York

master at the Peacock Theater.

NEW YORK, May 18 (HIT).-This is how The New York Times critics rate the new movies:

"New Films by New Filmmakers," Roger Greenspun reports, "features the work of Curt McDowell, a San Franciscan, whose Wieners & Buns Musical' and 'Pornogra Follies' dominate the program." At its best, the latter film "achieves n kind of slapdash surrealism, and, like Wieners & Buns Musical, it earns its grades—pretty good grades," according to Greenspun-"as much for depth of impudence as for range of invention." Greenspun goes on, "Miklos Gyulai's short Three Essays on Freedom' seem of little account, And I am not sure how to account for Andrew Lugg's Trace, a very slow right-to-left wipe across the screen dividing two different views of one young man apparently deep-breathing himself to death." James Her-bert's "Fig" came off better-. . my first James Herbert movie, but I am anxious to see more I think that he may be developing a highly personal cinema that is as rich and graceful as it is mysteriously solemn."

"As to the Pantomime we still have a Barrault and a Marceau. in Paris, undisputed masters both. As to the commedia dell'arte tradition we probably operate along old English lines, introduced into Denmark in 1800 by one Pascuale Casorti and his Great Italian Company. Mr. Casorti's company became

an instant hit in Denmark and when the Tivoli opened in 1843, the commedia dell'arte shows were a natural. The original house was located on the grounds. of the present Peacock Theater.

"Originally, the commedia dell'arte geure wasn't pantomime at all," says Mr. Larsen, "They talked, improvising and adlibbing as the show went on. The pantominie tradition developed when they moved out of Italy, to countries where no one understood Italian."

A factor in that development have been that the actors of the Paris Opera and the Theatre Français feared com-petition from the popular A law was passed. forbidding them to talk on stage. There is no similar law in Denmark—the good old Royal Theater seems to get along anyway-but the communication with the public is still strictly along the classical pantomime lines. An exception is Pierrot who is allowed to express a vociferous "aargh" when he happens to sit down on one of Columbine's embroidery needles or when Cassander kicks him in the rear.

Harlequin and Columbine, Cassander and Pierrot are on every night at 7:45 sharp. At 3:45 there is a ballet performance for an adult public. This year, coincidentally, it is Petipa's "Harlequin's Millions," staged by Hans Brenaa. Coming up in late June is a new ballet by choreographer Erik Bidsted.

The show is free to anyone who has paid the 2.50 crowns evening entry fee to the Tivoli Park. The charge for a seat (most of the audience is standing) is

FINANCIAL NEWS AND NOTES

GM to Start Producing Utility Car

General Motors says it plans to start produc-tion next month in Malaysia of a "durable, low-cost, general-purpose vehicle designed especially for assembly and use in developing nations." The small vehicle, similar in appearance to traditional military utility vehicles, will use parts manufactured by GM's U.K. unit, Vamhall Motors, and a locally-made frame on which a variety of simple bodies can be mounted. GM has not announced a price, but says it will be less than the lowest-priced GM vehicle currently built anywhere in the world. Ford has announced similar

Ericsson Sees 1972 Sales Gain

.L.M. Ericsson Telephone expects 1972 sales to Bjorn Lundvall. But he would not predict if the Ericsson group would reverse the earnings de cline of 1971 when net income fell 24 percent. Last year, Ericsson had foreign exchange losses of \$6,8 million, mainly from long-term dollar con-tracts. Mr. Lundvall says that labor problems in Italy, Ericsson's largest market in Europe after Sweden, also hurt 1971 results. He says the company is facing increasing competition from the Japanese in Latin America as well as in the Far East.

Reynolds Metals Cuts Dividend

Reynolds Metals Co. has cut its quarterly dividend by one-third to 10 cents a share, explaining that the expected business recovery is coming along more slowly than anticipated. The cut from 15 cents follows a reduction from the 27.5 cents a chare paid in the second quarter of \$2.8 million) compared with a loss of 134 million

present quarter to show an improvement over the opening three months of the year, but said: "The board did not feel the expected improvement will be dramatic enough to justify a continuation of the 60-cent annual rate." The company reported losses in the last two quarters of 1971 and the first quarter this year. The 10-cent dividend will be paid on July 1 to shareholders of record June 8.

Westinghouse Sees a Record 1972

Westinghouse Electric Corp. expects a record 1972 "if the economy continues to strengthen." According to George L. Wilcox, vice-chairman of corporate affairs, "It looks as though 1972 will be a strong year for the economy. Consumer confidence has returned, and the housing and consumer durables volume reflects it. Westinghouse in 1972 will have the best year since George Westinghouse set up shop in 1888."

Inco to Get Shares of Shimura Kako

International Nickel Co. of Canada (Inco) has agreed to provide free technical assistance to Shimura Kako, a Japanese nickel producer, in exchange for approval to acquire a 33 percent interest, or 20 million shares in Shimura. Inco will purchase the shares from Tokyo Nickel, a joint venture of Inco, Shimura and two other Japanese concerns. Shimura said it needs technical assistance for nickel smelting from Inco to help overcome a business recession. Shimura omitted its dividend for the half-year periods ended in May and November, 1971, and dismissed 320 of its 1,000 employees in February 1871. In the six months ended last November, Shimura had an after tax loss of 892 million yen (about

Profits in U.S. Rise Sharply In 1st Quarter

Revised GNP Figures Put Real Gain at 5.6%

By Edwin L. Dale Jr. WASHINGTON, MAY 18 (NYT). -Corporate profits before tax rose by \$5.6 billion in the first quarter to a record annual rate of \$91.6 billion, the Commerce Department reported today.

While the profit increase was a strong one, profits were only 10.4 percent above the first quarter a year ago. Before-tex profits for all of 1971 were \$8.54 billion, and for 1970 were \$75.4 hillion.

After-tax profits in the first quarter were \$623 billion, up form \$49.7 billion in the fourth quarter and \$44.8 billion in the first quarter of last year.

In a companion report, the Commerce Department said revised figures for the gross na-tional product showed that the economy in the first quarter performed a little better on both the output and inflation fronts than preliminary figures had indicated. The rate of "real" growth of

output-after adjusting for higher prices-is now put at 5.6 percent, up from the 5.3 percent reported previously. The overall GNP price index showed an inflation rate of 6 percent, a little less than the 6.2 percent in the earlier estimate.

Commenting on the figures, Herbert Stein, chairman of the President's Council of Economic Advisers, said, "We want and ex-pect a still stronger advance of the economy in the remainder of

the year than we had in the first percent in the last three months of 1971. Mr. Stein's main worry was, that the government's budgetary BASF Pre-Tax Net Jumps

42 Percent in First Quarter LUDWIGSHAFEN, West Germany, May 18 (AP-DJ),-Badische Aniith- und Sods-Fabrik (BASF) pre-tax group profit jumped 42 percent in the first quarter of this year, the company said today. But, BASF added, profits for the year will be only marginally

higher. Sales for the quarter were up 11.6 percent, the chemical producer said, to 279 billion deutsche marks (\$872 million) from 2.5 billion DM in the same period of 1971.

Pre-tax profit in the quarter was 313 million DM, up from million, in the year-ago period. Group net profit for the latest period was not available. BASP said group net profit in 1971 rose 7.5 percent to 288 million DM from 268 million DM in 1970. Net consolidated group sales were 10.2 billion DM, up 6.3 percent from 8.5 billion marks

Lower Dividend

As previously reported, BASF declared a dividend of 7.50 DM for the year, down from 11 marks

in 1870. Bernhard Timm, chairman, told a press conference that "we musn't be deceived" by the 42 percent first-quarter pre-tax

profit increase. "Over the whole year," Mr. Timm added, "I expect profit to rise only marginally, trailing the growth rate I anticipate for our

worldwide sales." He said group sales this year are expected to rise 7 to 8 per-

cent over last year's figure. The company also announced today that it is applying a new accounting system in accordance with the regulations of the U.S. Securities & Exchange Commis-

The new system defines the consolidated group as all companies, at home or abroad, in which BASF holds at least a 50 percent interest. Formerly, only domestic subsidiaries and affiliates were comprised in the term.

Wall St. Prices Boom After Report on Profits

By Alexander R. Hammer

NEW YORK, May 18 (NYT). The slumbering stock market woke up today and made its first advance in three sessions in stepped-up trading on the New York Stock Exchange.

Analysts attributed the up-swing and increased trading interest mainly to the announcement by the Commerce Department at the opening of the market that corporate profits in the first quarter rose 6.5 percent to a record \$91.6 billion annual rate. This reaction was clearly shown by the influx of buy orders report. The Dow Jones industrial average, which was up 3.68 at 10:30 a.m., elimbed to a gain of

5.04 at 11 a.m. During the remainder of the session the widely followed average advanced and finished at or near its best level of the day at 931.23,

up 10.08. Turnover was the largest since May 8, when volume amounted to 18.91 million shares. A total of million shares changed

hands today aginast 13.70 million shares yesterday. Although the economic news has been largely favorable most of the week, the unsettled Vietnam situation has been a dampening factor on the market, Earlier in the week it was reported that industrial production and

personal income rose in April, John Smith, an analyst for Fannestock & Co. summed up today'e activity in this manner: Now that Vietnam seems to be disappearing from investors thoughts, they've gotten in the mood to respond to the improving economic situation."

The advance today was acrossthe-board with the glamours, of-fice equipment, retail, electronic and special situations all making

atilini Lab

change, prices made a significant gain as measured by the index, which rose 0.14 to close at 27.75. Volume increased to 4.7 million shares from 3.9 million. In the OTC market, trading was described as active and prices as "generally better." The NASDAQ index moved up to 139.81, an increase of 1.47.

NASDAQ actives included North Central Airlines, 7 5/8, up 1/8, Rank, 32 3/8, up 7/8, Hearts Mountain, 29 1/8, up 1 5/8, and POM, 4, up 7/8.

Bond prices continued to move in a narrow range through the afternoon, with corporates and government intermediates closing with slight gains in another lackluster eession.

Unless piperwise noted, rates of dividends in the forepoint table are annual disbursements besed on the last
quartarity or semi-annual declaration, Special or extra
dividends or payments not designated as regular are
idealified in the following footnotes,
a—Also extra or extras, b—Annual rate plus stock
dividend, c—Liquidating dividend, d—Declared or paid in
1971 plus stock dividend, e—Declared or paid in
1971 plus stock dividend, e—Declared ar paid i pre-

Inc. And S.A. and Ltd. and GmbH — you see the key ones every day in the advertising columns of the International Herald Tribune. For this is the paper the significant Europeans read - and this is the audience significant corporate

advertisers are talking to.

Our legend claims if you sip a perfect Scotch you'll hear 100 pipers play. That's a lot of Pipers. But then 100 Pipers is a lot of Scotch.

100 Pipers Scotch Scotch. From Seagram, Scotland.
100 Pipers Scotch Whisky. Bottled in Scotland. Created with the skill that has made Seagram the world's largest distiller.

DE BEERS CONSOLIDATED MINES LIMITED Incorporated in the Republic of South Africa Points from Mr. H. F. Oppenheimer's Statement

Total sales by the Central Selling Organisation at R446.4 million were R68 million, or 18 per cent higher than in 1970, due to the considerable improvement in sales of gem diamonds. Nevertheless diamond stocks at 31st December amounted, at cost, to R219 million which is R35 million higher than at the end of 1970. Our subsidiary, The Diamond Corporation, continued to buy large quantities of diamonds, with the object of maintaining market stability, from sources outside our Group, and indeed last year these purchases were, for special reasons, at an unusually high level.

The net consolidated profit for the year attributable to De Beers The net consolidated profit for the year attributable to De Beers was R102 million. This figure includes the profits of our subsidiaries concerned with sea and foreshore mining, which have been consolidated for the first time. The comparative profit for 1970, adjusted accordingly, was R79 million, so that the increase in the Group profit attributable to De Beers was R23 million, or 29 per cent. A final dividend of 10 cents per deferred share was declared, making a total dividend distribution of 15 cents per share, which is one cent higher than in 1970. As a result of the re-alignment of currencies a surplus of R7 381 000 arose, mainly in respect of cash held outside Sooth Africa against our normal commitments when the rand was devalued less December. In order to provide against the possibility of loss arising from further currency fluctuations, R5.7 million of this surplus was transferred direct to a capital reserve and has not been treated as a profit in the accounts. Shareholders will recall the different circumstances in 1967 when a substantial loss was incurred as a result of sterling devaluation and charged against current profits for the year.

During 1971 a new long-term mining plan was adopted for the four Kimberley mines. This plan, which envisages the operation at any one time of only three out of the four mines, is designed to maintain output at the lowest unit cost and to prolong the lives of these old mines for as long as possible.

While the total tonnage from the Kimberley mines was maintained at about the same level as in 1970, there was a considerable reduction in the carate prodoced on account of falling grades. As I pointed out in my statement last year this is unavoidable and must be expected. In these circumstances it is pleasing to be able to report that sampling at Wesselton indicates that this mine has a rather longer his before it than had previously been estimated, and the mining programme in Kimberley will be adjusted exceptively. adjusted accordingly.

Production from the Einsch mine at 2 222 995 carate was lower by 273 033 carate then in 1970. This was on account of certain road construction work in the open pit which made it necessary to mine in lower grade areas to a greater extent. The grade has now returned to normal.

In Namaqualand the new mining policy to which I referred in my last statement was carried further during the year. The objective was to reduce the production of small stones which have been in oversupply and to increase the output of larger stones, with particular reference to the requirements of the South African cutting industry. For this reason operations at Koingnaas and Langhoogte were suspended in April and at Dreyers Pan mining was stopped in May so that the plant could treat gravels from the

northern reserves of Annex Kleinzee. The effect was a reduction in the carais produced from 636 871 carats in 1970 to 505 191 carats in 1971 and an increase in the average size of stone produced from 0.51 carsts in 1970 to 0.94 carsts in the second half of lest year.

The Jagersfontein mine ceased operations in May, after 100 years of life, and was replaced by Kofflefmtein which has been re-opened and started production in August. At the Premier mine production continued normally and prospecting has indicated improved grades at depth and an exceptionally long potential life. However, a considerable part of the stones produced are small and of poor quality and on account of market conditions have had to be stocked.

At The Consolidated Diamond Mines of South West Africa At The Consolidated Diamond Mines of South West Africa experimental mining to the west of the existing workings has revealed a much higher grade and average stone size than had been anticipated. This western block may prove to be an important source of comparatively large diamonds. Mining is, however, rendered difficult by heavy overburden and potential water problems due to the proximity of the sea and the fact that the bedrock is below sea level. Techniques are being developed to cope with these difficulties. During the year mining operations were continued with improved efficiency. The caratage produced increased slightly and the average stone size rose from 0.76 carata to 0.88 carata.

At the Orapa mine in Botswana the pilot plant ceased operations in June and the main plant was brought into production. During the year a total of \$21 914 carats were produced and this year we are planning to treat approximately 2.3 million metric tons for a production of 2.4 million carats.

Gem sales this year have been running at a high level with demand in the United States improving and consumption in Japan. Germany and certain other countries continuing to increase. However, there is still a substantial over-production of smaller rough dismonds which results in considerable stocks continuing to be held by the Central Selling Organization. Selling and marketing measures are being taken to remedy this situation and some success

We are expecting that total gam and industrial sales for the first half of this year will show a substantial increase over the same period of last year, after allowing for price increases and devaloations. This certainly shows a very satisfactory improvement in the market but I must again warn shareholders not to draw un warranted conclusions from these sales. There are many other factors which affect De Beers profits and it is not possible to make even approximately accurate estimates on the basis of the Central Selling Organisation sales figures alone.

Organisation sales ngures same.

Copies of this statement and of the annual report and accounts are obtainable from the London office of the company at 40 Holborn Viaduct, ECIP LAJ, or from the United Kingdom office of the Share Transfer Secretaries, Charter Concolidated Limited, Kent House, Station Road, Ashford, Kent.

The Eighty-fourth annual general meeting of De Beers Consolidated Mines Limited will be held on 6th June, 1972 at the head office of the company in Kimberley, South Africa.

BRIDGE

By Alan Truscott

and if the original bidder attempts a second rescue, hoping for a fit in some unexplored suit, he is likely to be courting dis-aster. This is one of the rare deals on which such a desperate attempt succeeded.

North opened one club and East, encouraged by the favorable vulnerability, jumped to five diamonds. South could not consider doubling so he bid five bearts. West doubled, rightly confident that he could defeat five hearts and wrongly confident that he could defeat any North-South retreat.

North should no doubt have passed five hearts doubled, leaving a delicate decision to South, but he was overimpressed by his dismond stoppers and chose the risky course of rescuing in five no-trump. This contract would certainly have falled, perhaps disastrously, but South soldiered on to six spades. As it happened, this was right, but it would have been wrong if North had had long, solid clubs, as he should have had for his five no-trump bid East and West doubled each fresh bid with increasing relish. West led the diamond seven, and South put on dummy's jack and ruffed East's queen. It seemed sure that West held three or four trumps headed by the queen, and South prayed that it was three not four. If East held a singleton ten or eight, there

was hope for the contract. The declarer led the space jack, and it did not matter what West did. He covered with the queen, and, as planned, the ten dropped from East under dummy's king. South cashed two heart winners, confident that

Rescuing a partner who has East could not ruff, and discard-been doubled at the five level is ed a diamond from the dummy. usually a doubtful maneuver, He continued with a club, and West put up the ace-ducking

> the clubs were established a third-round ruff. It was an easy matter to draw West's remaining trumps and make the doubled slam.

CRISES OF THE REPUBLIC

Lying in Politics. Civil Disobedience. On Violence. Thoughts on Politics and Revolut By Hannah Arendt. Harcourt Brace Joranovich. 240 no.

Reviewed by Philip Green

this collection of essays by Hannah Arendt (all of which have recently appeared in The New York Review of Books) for some sympathetic variant of "radicalism," "liberalism," or "conservatism" will be disap-OF pointed. Anyone, though, who doubts the worthiness of our own status quo, and is inspired by the most fundamental criticisms of it, will find at least as much to ba grateful for in Miss Arendt's work for what she has constructed over the past several decades is nothing less than the most radical challenge of all to the entire course of our modern political history.

In such influential works as

"The Origins of Totalitarianism,"
"Between Past and Future," "Eichmann in Jerusalem." Revolution," and "Men in Dark Times," Miss Arendt has returned again and again to a set of interrelated themes: that the unrestrained, "value-free," individualistic secularism of the modern world has gradually undermined the bases of legitimate authority, uf any meaningful affective relationship between man and state; that the illusion of liberal "freedom" has often been pur-chased at the cost of devaluing real political participation by the people; that the bureaucratic organization of modern societies permits the most hideous of evils to be accomplished by the most ordinary of men; that the "mass societies" of our era "can no longer be controlled, let alone governed." ("Thoughts on Politics and Revolution.") All of this, finally, is summed up in a phrase that reappears throughout her writing: "the crisis of modern times," a crisis which, brought about by the lack of opportunities for humane and creative action by the mass of men and women, leads to the opposite kind of (pseudo-) action, to war and

Miss Arendt's latest essays on this grand theme are particularly interesting for two reasons. First, in the 1950s it was possible for those Americans who noticed her work at all to write off her perception of permanent crisis as the misapprehension of a refugee from European horrors, whose view of the 20th century as a blasted beath was poetic but of little relevance to Americans. That kind of dismissal is no longer possible. These essays are, in large part about at she says, the "Crises of the Republic"; Miss Arendt is talking about us. Second, it is likely that those cerned. But there is so r

ing error and a fielder's choice in the 18th inning enabled Jos Lovitto to score the winning run that gave Texas a 4-3 road victory over Kansas City. The victory ended a four-game Ranger losing streak and halted a threegame Royal winning streak With one out in the 18th, Lovitto reached base when catcher Dennis Papke interfered with his swing. Jim Panther bunted and sitcher Ted Abernathy threw the ball away, allowing Lovitto to move to third. After Jim Driswas intentionally walked, Tom Murphy relieved Abernathy. Toby Harrah hit a bouncer back to the mound which kicked off Murphy'e glove and Lovitto scored when the grounder was turned into a forceout at second. The game took 4 hours, 55 minutes. Athletics 4, Angels 0

Ken Holtzman scattered eight hits for his second shutout of the season and singled in two second-inning runs to lead Oakland to a 4-0 road victory over California. The southpaw improved his won-lost record to 5-2.

Indians 2, Yankees I Rookie reliever Fred Beene walked John Brohamer with the bases loaded in the ninth inning to force in Tom McCraw with the winning run and give Cleveland a 2-I home victory over New York. McCraw had tripled to lead off the inning and the next two batters were intentionally walked to load the bases. Rookle Dick Tidrow, a 24-year-old righthander, made his eighth start of the season for the Indians and went the distance for the first time. The victory boosted his won-lost rec-

Brewers 4, Red Sox 1 George Scott hit a two-run homer in the first inning and Jim Lonborg scored his first victory against his former teammates as Milwaukee defeated Boston, 4-1, at Milweukee.

Sports Shorts

Russia's champion soccer team, Dynamo of Moscow, will make a five-city North American tour, it was announced in Dallas, which hosts the opening game on June 7. The Dallas Tornado of the North American Soccer League will play the Russians at Texas Stadium. Other cities on the tour are New York, Baltimore, Toronto, with the fifth city to be named later. Tornado vice-president Lamar Hunt, who also owns World Championship Tennis and the Kansas City Chiefs of the National Football League, said the aim of the league is to "put the United States on the international soccer map."

The European welterweight ti-tle fight in Copenhagen between champion Roger Menetrey of France and Danish challenger Forgen Hansen has been postponed from May 25 to June 22 after Menetrey cabled the organizers that he had injured a hand. However, the promoter, Mogens Palle, called the injury a fake "to gain time" after re-turning to Copenhagen from Menetrey's training camp at Annecy, France. Hansen, 28, undefeated in 21 professional bouts. said he was "furious" because he was training to reach his peak on May 25, and said he would make Menetrey "pay when we meet."

Hie Nastese of Romania retained a 13-point lead in the Grand Prix of Tennis in the men's division. He gained 10 points after losing to Bob Hewitt in a British Hard Courts semifinal, for a total of 213. Manuel Orantes of Spain picked up 30 points for his Belgian Open title, which gave him a total of 200. Stan Smith of Pasadena. Calif., is third with 162. In the women's division, Evoune Goolagong of Australia moved into second place with her British Bard Courts victory, trailing Nancy Richey Gunter of San Angelo, Texas, by 30 points. Mrs. Gunter has 150.

Bruins' Orr Honored BOSTON, May 18 (UPI).--Defensement Bobby Orr of the Stanley Cup champion Boston Bruins was honored by Sport magazine as the most valuable player in the National Hockey League playoff final.

Righthander Shuts Out Braves

Dierker Hurls Astros Into First in NL West

NEW YORK, May 18 (UPI).-Righthander Larry Dierker pitch. ed his best game since suffering an arm injury last July, limiting the Atlanta Braves to four hitz as the Houston Astros triumphed, 9-0, at the Astrodome. It was Dierker's second shutout of the

Houston's victory, coupled with San Diego's victory over Los Angeles, moved the Astros into first place in the National League's Western Division by percentage points over the Dodgers. Dierker, who showed a good st ball, slider and change-up, had almost perfect control, as opposed to his first shutout of the year, last month against the Chicago Cubs.

"I didn't have my good stuff in that game and had to go to a sinker, which isn't like me," he

Mays Helps Mets Take 7th Straight

NEW YORK, May 18 (UPI) .--Willie Mays walked to open the first inning for the Mets, scored on Ted Martinez'e triple and np-ended catcher John Boccabella in the close play at the plate, allowing Martinez to score the winning run as the New York Mets scored their sevently straight victory. 2-1, over the Montreal Expos at Shea Stadium,

Thursday

After walking, Mays scored on Martinez'e triple to deep right center, Mays barrelled in Boccabells, and the relay to the plate from eecond baseman Ron Hunt skipped away, allowing Martinez to come home, too.

Jim McAndrew pitched the first six innings to gain his second victory in three decisions and give the Mets their 11th triumph in the last 12 games, Tug Mc-Graw pitched three scoreless innings of relief to gain credit for a save

The Expos' lone run came in the fifth when Tim Foli doubled and scored on Hector Torres's

The Mets got only five hits as they pushed their National League Eastern Division lead to 5 1/2 games over idle Philadelphia. Mike Torrez went all the way for Montreal and suffered his first loss after three victo-

Reds 8, Giants 5 Hal McRae drove in four runs with a single and double and his replacement in center, Cesar Geronimo, added an insurance run with a triple as Cincinnati rolled to its eighth straight victory, 8-5, over San Francisco at Candlestick Park. The Reds got to Giants' starter Sam McDowell for three runs in the first and, after San Francisco went ahead. 4-3, in the sixth, they battered the lefthander and sent him down to his first loss of the eeason after five victories. ...

The Scoreboard

TENNIS—At Butharest, Romania toek a 2-0 lead over Iran after the first day of a Davis Cup Bastern Zone final. Ille Nastase beat Taghi Akhbari, 6-1, 6-1, 6-2, and Ion Tirko beat Hossein Akthari, 6-2, 6-3, 6-3.

At Bangalore, India, Australia won the last two singles matches to complete a 5-6 sweep of India in a Davis Cup Eastern Zono final. Rées Case beat Anand Aurithraj, 6-1, 8-5, 7-5, and Colin Dibley beat Vijay Aurithraj, 7-2, 4-6, 6-3, 6-2.

At Gulidford, England, in a British tournament, Evonne Goolagong of Australia gained the women's semifinals with a 6-1, 2-5, 6-4 victory over Coriane Melasworth of Britain. In other women's quarterfinals, Nell Truman of Britain beat Patri Hogan of La Jolia, Calif., 8-6, 6-1; Joyce Williams of Britain beat Patri Hogan of La Jolia, Calif., 8-6, 6-1; Joyce Williams of Britain beat British junior champion Verenica Burton, I.S. 8-1, 6-2. EPGEN—At London, St. Heleos pass the league. league. BPGBY—At London, St. Holens upsat Leeds, 16-13, to win the Righy League Challenge Cup at Wembley Stadium. At Duthan, South Africa, the English Rughy Union team best Natal, 13-0, to open a seven-game tour of South Africa.

type of game. My arm felt lively and I could reach back and get a little extra."

Dierker retired 18 of the last 17 men he faced and didn't let a Brave beyond second base. It was only his sixth career victory compared to II defeats against the Braves and raised his wonlost record to 3-2. Doug Rader's bat and Atlanta's weak defense accounted for the Astro runs. Rader had three hits, including three-run homer in the eighth, to drive in four runs and he scored twice.

But the Astros scored enough runs for Dierker to triumph without hitting a ball. The first run came on three walks and a wild pitch off loser Ron Reed, now 1-5, in the fourth.

Roger Metzger, hitting only .160, drove in the second run when he was hit by a pitch with two outs and the bases loaded in the sixth. Shoddy defense helped Houston

to four runs in the seventh. Padres 2. Dodgers 0

Lefthander Fred Norman pitched his second straight shutout and scored the first run of the game after getting a base hit as San Diego beat Los Angeles, 2-0, at San Diego, Tommy John started for the Dodgers and lost his

U.S. Auto Racer Dies of Injuries

INDIANAPOLIS, May 18 (UPD. -Jim Malloy of Denver, 37, died today of injuries suffered Sunday when his Eagle-Offenhauser crashed into a wall during practice for the May 27 In-dianapolis 500 auto race. He died in Indianapolis Methodist Hospital, where he had been in critical condition since the crack-up in tures of both legs and an arm, internal injuries and seconddegree burns on his hands and

Mr. Malloy, who finished fourth in the race last year, was the first fatality at the Indianapolis Motor Speedway since May, 1968, when Mike Spence of Britain died in a wreck in trials for the race.

was lifted in the seventh for a pinch hitter after giving up only two hits and an uncarned run One of the hits was Norman's lead-off single in the third inning. Norman was sacrificed to second and tried for third on a ground ball to shortstop hit by Jerry Morales. Shortstop Bill Russell threw to third baseman Bill Grabarkewitz for the play on Norman, but the ball got through Grabarkewitz and Norman scored on the error.

Pirates 12, Cardinals 0 Shortstop Jackie Hernande got his first three RBIs of the season with two singles and Vic Davalillo and Manny Sanguillen homered as Pittsburgh walloped St. Louis, 12-0, at Pittsburgh and handed the Cardinals their seventh straight defeat. Steve Blass, who ran his record to 4-1, scattered 11 hits

in pitching the Pirates to their eighth victory in the last 10 Cubs 3, Phillies 2 Jose Cardenal singled home the decisive run in the ninth inning

Mets 12, Expos 2 New York mauled Montreal, 12-2, at Shea Stadium, treating Gary Gentry to the luxury of nine runs in the first three innings—three runs in the first and six in the third. They finished the evening with 17 hits and Gentry, who responded with a four-hitter, almost went un-noticed in the midst of his freeswinging teammates. Gentry boosted his won-lost record to 3-1. John Milner, a rookie left fielder playing for injured Cleon Jones, led the charge with a double and a home run that drove in five runs in the first three innings.

Cubs Get Aker

CHICAGO. May 18 (UPI).-The Ohicago Cubs announced the ac-quisition of righthanded relief pitcher Jack Aker from the New York Yankees. Cubs' officials said the 31-year-old Aker completed a transaction that sent Johnny Callison to the Yankees last winter.

Observer

Get Crass

By Russell Baker

some high-standing politician moral purpose. utters that line about our not . even wanting anything in return thought our policy absurd. When for all the fighting we have done

in Vietnam and all the money spent out there, somebody ought to stand up in the audience and cry, "Why not?"
Wars make sense if you are attacked, but fighting a war out of pure high-

grade unadulterated surpassing moral excellence is simply bad policy.

It also makes for very cruel wars. Something about fighting for the sake of goodness seems to sharpen an army's thirst for butchery. It is probably the conviction implicit in such wars that the more people you kill, the more you elevate the moral tone of the public situation.

This consideration, however, is incidental to the point, which is that expecting same spoils from war is not so terrible a thing as we make it sound, and is probably preferable to making war for uplift. If we had gone into the Vietnam war with gain in mind, we should probably have been out of it years ago, to the profit

of everybody. For one thing, the Vietnamese might have understood us. Having lived with the French for a century, they could have coped with another exploiter who wanted to drain their country for wealth.

Instead we came to do good. We would help them avoid Red Satan's claws, make them part of "the free world," give them the Constitution of the United States, parliamentary government and the works of Thomas Jefferson and Abraham Lincoln, whence burger stands and all the rest

of it. Democracy!

How baffling it must have been to them, seeing those extollers of capitalism with its belief in the moral superiority of greed telling them that nothing was wanted, no land, no wealth, in return for the goodness to be granted. How that confusion must have been compounded as we are embarrassing, to put it they watched us proceed to de- as mildly as possible.

WASHINGTON. - Every time stroy their country out of high

The Romans would have Rome went to war, it was to get something out of it. Those famous Roman highways were not built because the Romans felt an obligation to bring the blessings of rapid transit to barbaric lands. They simply made it quicker to get the loot back to Rome.

The British operated on the same principle. Good government, of course, followed the Roman conquest, just as Christianity and good railroads followed the British. Stable nations are more easily exploited than the disorderly; good government and Christianity brought stability to the conquered Roman highways and British railroads hastened the booty's progress to Rome and

By many tests their system was also successful for the countries they exploited. Not many politicians in Washington would agree aloud with thet proposition. "Imperialism" and "colonialism" are bad words in contemporary political cant, even though one consequence of Rome's was Britain, and one consequence of Britain's was the United States. (Purists at demagoguery, of course, will say this simply proves the evil of the system.)

The American system—fighting wars to improve the moral tone of the world-ought to be abandoned. As professed believers in moral excellence of the commercial principle, we should go back to the sensible Roman-British policy. Next time, let us hear no talk about not wanting anything at all from war-nothing but B better class of government

in the world. Next time, let everybody know flowed shopping malls, high-rise it: If we go in with guns, we office buildings, drive-in ham-expect to get something out of it. To get plenty out of it, in fact. With this approach we can base our decisions about warmaking on calculations similar to those we use when deciding whether to buy B new plant, or to merge with Consolidated, and at that sort of thing we are pretty good.

As enforcers of moral excellence

"Some islands are more difficult than others. Lundy is a difficult island."

The Life On Lundy

By Barbara Bell

LUNDY, England (IHT).—As Britain prepares to join modern Europe, what about the Britons who aren't prepared to join modern Britain?

Not that the 30 or so residents of the rugged chunk of granite called Lundy off southwestern England are trying to live in the past.

But they have chosen to live on a windswept, mostly barren island three miles long and half a mile wide at its widest point, totally dependent on the mainland 12 miles away for food and other supplies and yet sometimes isolated from it by gales for weeks at a time, with one store, one pub, a hotel, a crumbling castle, three lighthouses (two of them functioning), three telephones (two of them in the lighthouses), one automobile, little elec-

highly and no doctor.

As Felix W. Gade, who came to Lundy in 1926 to be resident agent, puts it, "Some islands are more difficult than others. Lundy is a difficult island."

Yet Mr. Gade is still on Lundy at the age of 81, booming out "Lundy calling Hartland" twice a day (and at any hour n an emergency) from a radio shack be-hind the Marisco Tavern as he maintains the island's communication with the Coast Guard station on the nearest point of the North Devon mainland. And he says he can't imagine living anywhere else.

Shared Feelings

Other islanders share his feelings. "Wild horses wouldn't shift me from echoes Ian Grainger, a civil engineer who moved here from western Scotland to become the agent when Mr. Gade retired from the administrative post

Why? It's B small, beautiful island with great historical interest and an extraordinary number of interesting features, he says. "And perhaps the most important feature is its peace—it's a remarkable place for just peace and quiet."

The quiet on many of Lundy's steep cliffs and headlands is broken only by the bleating of lambs, the muffled crash of waves on rock some 400 feet below and the shriek-

ng of hundreds of seabirds. The birds lured Nicholas Dymond to Lundy. Now, as warden, he lives among stacks of ornithology reports in a non-functioning lighthouse known as the Old Light, and spends his days tramping along the ridges of the island's spectacular west coast-from where the gray-blue Atlantic stretches unbroken all the way to Newfoundland—and among gurse and heather and the ruins of Lundy's abandon-

ed marries. "Lundy lies in the western migratory route and 257 species of birds have been sighted here," hs explains, keeping high-powered binoculars ever at the ready for a new sighting.

One special responsibility of the warden is to watch for and carefully count the funny-looking seabirds called puffins. The name Lundy is said to have come from the Norse for "puffin island," and although fewer of them are spotted here every year, the puffin remains Lundy's official emblem and a frequent topic of discussion among

both islanders and visitors.

Like Nicholas Dymond, Ian Grainger and Mr. Gade, most of Lundy's residents work seven days a week, and most of them perform jobs that are vital to the functioning of the island.

Barbara, Ball.

Jim Webster's job is surely vital to its morale. For as keeper of the Marisco Tavern, he runs Lundy's only social center and entertainment spot—a place where a fire crackles in one corner, mementoes of ships wrecked against Lundy decorats the walls, a dusty drinking horn passes the length of the bar with each patron taking a gulp and "topping up" the mixture with a slosh of whatever he may be drinking and lighthouse keepers lead the crowd in exuberant renditions of "It's a Long Way to Tipperary" and "Heart of My Heart."

History

The history of peaceful Lundy is crowded with pirates and smugglers. One of the island's owners was put to death in 1343 for plotting against the life of King Henry III; another was charged by Britain with violation of the Coinage Act in 1931 for having had coins minted for use on Lundy bearing his own likeness instead of that of George V.

In 1969, the island was up for sale, and rumors of its imminent transformation into either B Scientology retreat or B nodist colony filled the Marisco Tavern. But a last-minute gift of £150,000 by B British ousinessman enabled the National Trust to purchase Lundy. Today it is administered by another private British charitable trust, the Landmark Trust, which has pledged to maintain its "simplicity and tranquility," and to restore rather than to develop the

PEOPLE:

since last August searching for

Yoko's 8-year-old daughter

Kyoko. They were awarded custody of the child by a Texas

court with the stipulation that

she be raised in America, but

they have still not seen Kyoko

and contend she is being hidden

by her father, film producer Anthony Cox. When govern-ment attorney Vincent Schiano

asked Mrs. Lennon if she would

accept permanent residence even

if her husband were deported

(presumably as an undestrable

alien because of his contested

1968 marijuana conviction in

England), she wrung a hand-kerchief, choked back tears and

answered, "That's a hard deci-

sion to make. You are asking

me to choose between my husband and my child... I only

hope you will understand our

situation and consider our child

and not consider the technicalities

a press conference after the

hearing, both Lennons were op-

timistic; John said he believed

the government was treating him

fairly, and Yoko said, "I still have faith in American justice."

Houston socialite Candace Mossler Garrison and her

nephew. Melvin Lanc Powers,

have been ordered to pay lawyer

Percy Foreman an additional

\$390,700 for his defense of the

two in the 1966 Miami trial charg-

ing them with the murder of

Mrs. Garrison's husband, mil-lionaire Jacques Mossler. They

were both found innocent. A

man was still owed \$140,000 of

his \$350,000 fee for defending

Powers, and that the former Mrs.

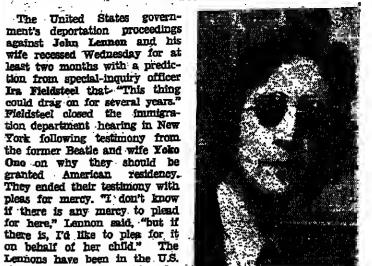

Mossler, who married Houston

contractor Barnett Garrison in

Houston court ruled that Fore-

as important in this case."

Lennon Hearings Recessed 2 Months

John Lennon at Wednesday's hearin

-1971, owed \$250,000 for Foreman work for her between the tir of Mossler's 1964 death and t trial

Jazz pianist Romano Mussol has instructed his lawyer to it vestigate allegations that it late father. Fascist dictator Benn Mussolini, ordered the murder Pope Pius XI in 1939. The mo follows publication in the Frenc magazine Paris Match of B repothat according to the diaries the late French Cardinal Euge: Tisserant, Pius XI was killed by fatal injection administered C Mussolini's orders by Dr. Fran cesco Pettaci, father of the dict. tor's mistress, Clara Petacci. Tr Vatican has denied the sto-and Carlo Cardinal Confalonier who was Pius XI's private so retary, said the doctor never et tered the Pope's room. At th time of the death of Cardine, Tisserant last February, the que: tion of his alleged secret file caused some controversy in Vat

Elizabeth Taylor plans to pla Bll of the four female leads 1 the film adaptation of the Broad way hit play "Twigs." says p ducer Frederick Brisson. In the stage version, Sada Thompso won top swards for her quadrup portrayal. Brisson said that h wife, actress Rosalind Russell. h. finenced his choice of Miss Taylo for the part, suggesting that tr. four roles might win four Co cars," which would give Liz total of six.
